ALEXANDER KAGERER

DEVELOPER

ABOUT ME

As a former cocktail bartender in London I developed skills in team management, crafted inventive drinks, and curated menus, all while engaging with a diverse range of fascinating individuals. Intrigued by technology, I explored HTML and CSS in 2013 for the first time. Driven by genuine passion, I took the decisive step to formally learn how to program, aspiring to seamlessly merge my creative instincts with technical proficiency for innovative solutions.

WORK EXPERIENCE

06/2023 - 02/2024
CODERS.BAY — Software Development

I actively participated in the CODERS.BAY software developer bootcamp, immersing myself in a comprehensive curriculum that covered a diverse range of modern development technologies and best practices.

02/2023 - 05/2023
Continuing Education

Attended online courses such as The Odin Project for frontend development. The focus was on frontend technologies like HTML, CSS and Java Script.

04/2022 - 02/2023
Tractive GmbH, Linz
Technical Content Manager

Managed successful product launches and played a key role in e-commerce strategy implementation. Coordinated technical aspects of translation processes and contributed to the redesign of the Tractive webshop for an improved user experience.

10/2022 - 03/2022
Continuing Education During Pandemic

Engaged in foundational CCNA courses while actively pursuing employment opportunities during the COVID lockdown. Topics covered encompassed the fundamentals of networking.
